

# Call for Papers

## Special Issue on Advances in Fuzzy Systems

### JACIII Vol. 16 No.6

### Submission Deadline: May 20, 2012

This special issue intends to gather high-quality submissions on novel and original research on fuzzy systems. It is expected to lead to new directions of fuzzy systems and further developments in related fields. Papers are invited that address advanced theories and applications of fuzzy systems. Topics of interest include, but are not restricted to:

- Fuzzy Inference
- Fuzzy Control
- Fuzzy Clustering
- Fuzzy Logic
- Fuzzy Sets Theory
- Fuzzy Systems Optimization
- Applications
  - Data Mining
  - Prediction
  - Signal Processing
  - Image Processing
  - Pattern Recognition
  - Control
  - Computer Vision
  - Machine Learning
  - Diagnosis
  - Decision Support

#### Important Dates

- Paper Submission Deadline: May 20, 2012
- 1st Decision Notification: July 20, 2012
- Final Manuscript Deadline (After Acceptance):  
Sep. 20, 2012
- Publication: Nov. 20, 2012 (Vol. 16, No.6)

#### Submission / Contact to:

Kiyohiko Uehara, Associate Professor  
Department of Media and Telecommunications Engineering  
Ibaraki University  
E-mail: [k-uehara@mx.ibaraki.ac.jp](mailto:k-uehara@mx.ibaraki.ac.jp)

Papers should be submitted in Microsoft Word or PDF format. The contributors are invited to visit the website at [http://www.fujipress.jp/JACIII/JACIII\\_authors.html](http://www.fujipress.jp/JACIII/JACIII_authors.html) where the following documents are provided.

1. Instruction for Authors
2. Guide for Preparation of Manuscripts
3. Guideline for Electronic Submission
4. LaTeX class archive for JACIII article
5. Page Charge and Reprints

Note: A charge of ¥11,000 (submitted in English) or ¥21,000 (submitted in Japanese) per printed page will be invoiced to the author or author's designated institution. Reprints can be purchased on request.
