

Keyword Index of Journal of Advanced Computational Intelligence and Intelligent Informatics Volume 12

2

2D chart.....10

A

A* algorithm.....206
 accelerated Levenberg-Marquardt
 algorithm361
 action sequences.....150
 aeroelastic wing section198
 aggregation operators416
 aging125
 anchorage.....529
 ant colony optimization.....125
 anytime systems198
 appearance frequency.....41
 artificial neural network.....32
 association rule.....26
 attractive summary41
 attributes accumulation467
 automatic calibration106
 autonomous/local/global
 navigation206
 autonomous digital actor.....277

B

behavioral analysis.....435
 boundary excursion.....94

C

calculus of variations454
 candlestick chart.....383
 chaotic systems.....165
 Chargeable Grid Service (CGS) 523
 classification94, 218, 243, 516
 clustering461
 cognitive and social learning rates
284
 collaborative summarization10
 color similarity4
 color space.....268
 combinatorial game theory263
 comparative association mining.393
 competitive learning314
 computer assisted education234

computer game.....263
 computer vision.....336
 consensus.....416
 consistency132
 container dwell times355
 container loading.....422
 content-based image retrieval268
 controlled languages.....234
 cooperative control.....355
 cooperative game.....409

D

DAC theory165
 data fitting249
 data mining243, 467, 516
 decision making435
 detection algorithm.....4
 discrete cosine transform268
 distance threshold pruning268
 distortion error.....314
 distributed sensors488
 driver behaviour172
 dual ternary indexing227
 dynamic programming546
 dynamic threshold approach.....63
 dynamic time warping150

E

economic model523
 ellipsoid190
 ensemble learning.....297
 equipment utilization.....355
 error-function.....106
 estimation249
 evolution377
 evolutionary computation .393, 467
 evolutionary multi-objective
 optimization297
 evolving PSO284
 eye position32

F

Faigle and Kern's Shapley value
409
 fault compensation111

fault detection.....111
 field programmable gate array...348
 finite random set16
 force feedback116
 forecasting249
 fuzzy c-means clustering454
 fuzzy AHP.....529
 fuzzy clustering443
 fuzzy control336, 370
 fuzzy controller190
 fuzzy inference48
 fuzzy logic254
 fuzzy logic controller.....348
 fuzzy membership function48
 fuzzy model-based control.....537
 fuzzy observer165
 fuzzy reasoning172
 fuzzy target.....435

G

GA.....85, 218
 game programming156
 gene expression data218
 generalized association rule63
 genetic algorithm.....284
 genetic network programming
63, 383
 genetic network programming
 (GNP).....393, 467
 global path planner.....328
 GM(1,1) model.....249
 grey system.....249
 grid computing479
 Grid Payment System (GPS)
254, 523
 Grid Services.....523
 group decision making.....416
 GSM254
 Gustafson-Kessel clustering
 algorithm361

H

helicopter motion control.....342
 human-robot interaction.....26
 human-scale virtual environments
116

human interface.....304
 humanoid robot503
 humatronics26, 494
 hybrid method328
 hydraulic systems111

I

I3P142
 image coding314
 image processing.....48, 509
 information geometry.....443
 information recommendation
26, 494
 information retrieval.....182
 infrared video32
 initialization57
 input constraint.....190
 input nonlinearity537
 integrated algorithm328
 intelligent information provision
10
 intelligent parking system.....348
 intelligent space.....488
 intelligent synchronization132
 intelligent system290
 interactivity132
 interoperability77

J

Japanese puzzle509

K

KNN218
 Kullback-Leibler divergence443

L

Lagrange function461
 lane change model172
 leaping and pushing motions277
 linear discriminant function182
 liquid crystal display panel.....48
 LMIs165
 LMIs conservatism.....190
 local minima.....328
 local navigation method328

M

Massively Multiplayer Online
 Gaming (MMOG)142
 mentality expression.....304
 metrics416
 microwave243, 516
 mobile/indoor robots206
 mobile robot488
 model-based controller.....342

modelling111
 MOGs132
 motion capture.....116
 motion planning277
 mountain clustering.....448
 moving average filter361
 multi-output fuzzy logic
 controller370
 multimodal text10
 multiobjective optimization.....377
 multiple-fuzzy logic controllers.....
370
 multiple camera4
 multiple models198
 music retrieval227

N

natural language156
 natural language processing234
 navigation positioning system...290
 neural controllers.....377
 niching479
 nimer.....263
 nonlinear control198
 nonorthogonal objects422
 normal set system.....409
 number theory263
 numerical patterns426
 numerical values.....426

O

object-oriented software
 development370
 obstacle avoidance.....336
 omni-directional camera.....16
 online game150
 ontology63
 optimal route546
 optimization85, 461
 optimum skeletal structure.....57
 ordered weighted averaging
 (OWA)529

P

parallel distributed compensation
198
 partition error314
 partner robot.....494
 pattern classification.....297
 peer-to-peer (P2P)142
 performance measure355
 player classification.....150
 possibilistic clustering.....448
 potential field based guiding.....206
 printing pressure.....48
 probability hypothesis density
 (PHD) filter16

protocol.....142

Q

Q method.....546

R

rain-area identification243
 rainfall intensity516
 RasID85
 RBF network297
 real-time system348
 recognition system509
 reduction314
 reinforcement learning383
 reliability77
 reliable messaging.....77
 REM32
 responsiveness132
 road networks546
 robot304
 robot communication protocol...77
 robotics494
 robot navigation336
 rough sets426
 rule extraction57
 rule generation.....426

S

scheduling.....479
 SCXML156
 sector nonlinearity537
 sequential extraction of clusters.....
448
 sequential Monte Carlo (SMC)...16
 SERCOS communication.....503
 SFLA218
 shapley value409
 simple analytical model (SAM).....
355
 simulated annealing.....479
 simulation111, 370
 single joint robot design503
 sleep.....32
 sliding mode controller342
 spatial analysis529
 statecharts156
 stock trading model.....383
 story41
 structural learning with forgetting
57
 sumber263
 surveillance system4
 SVM94
 switching85
 switching fuzzy model.....537
 switching Lyapunov function....537

T

Takagi-Sugeno fuzzy systems.....	165
technical index	383
test item translation.....	234
test item writing	234
text summarization	41
time related.....	467
tolerance	461
tracking.....	488
traffic safety.....	509
traffic simulation.....	106, 172
traffic system.....	393
transport.....	142
TRMM	243, 516
TS model MISO-NF network.....	361
twofold memberships	454

U

Ulsan port.....	529
unbalanced data.....	94
uncertainty	435, 461, 488
unified planning	277
user profile	26
utility programs	426

V

virtual human	116
vision-based obstacle detection..	206
visual simulation	125
visual tracking	16

W

wavelet transform.....	150
weather information	435
web intelligence	494
web service.....	182
web service discovery.....	182
web services	77
WHM offset	94
wood	125
worm-eaten	125
