

Keyword Index of Journal of Advanced Computational Intelligence and Intelligent Informatics Volume 14

2

2D appearance models638

3

3D models638

3-D reconstruction.....122

3D-range camera770

A

α -cut.....76, 256, 581

abdomen test128

acceleration method89

active entropy475

active information475

adaptation793

adaptive gesture.....813

adaptive inverse dynamics

controller224

Adaptive Neuro-Fuzzy Inference

System (ANFIS).....722

agent831

ALB index.....431

albedo344

anytime systems240

approximation.....110

arc furnace.....722

artificial intelligence.....684

artificial market simulation661

artificial neural network(s)

.....63, 297, 708

assembling of objective functions

.....618

assembly line balancing.....353, 431

asset allocation464

assisted search475

asymmetric793

attentive user interfaces.....758

auction based coordination13

augmented reality4

automatic pattern generation system

.....776

autonomous robot.....852

B

behavior understanding309

biometrics63

bipartite network408

biped walking.....550

black-box modelling approach...722

body schema.....793

breathy voice135

Business Process Execution

Language (BPEL)523

C

calcification128

capacitive parameter.....555

capital allocation464

case based reasoning.....540

CBIR.....34

character recognition.....179

class association rule mining497

classifier.....297

cluster analysis869

clustering802

clustering method390

co-evolution.....215

collaborative filtering654, 729

color.....860

color detection.....55

color quantization (CQ)375

color transfer185

communication852

community detection.....408

comparative advantage624

compositional rule of inference

.....76, 256, 581

computational finance464

connection relations638

constrained clustering.....402

contemporary music288

conventional modelling approach

.....722

conversation systems.....741

convex fuzzy set76, 256, 581

Coriolis force.....751

cumulative histogram185

curse of dimensionality325

cyberinfrastructure.....700

D

data cleaning297

data pre-processing297

decorated character.....179

defense systems.....684

defuzzification method.....247

degree of expertise700

design structure matrix.....512

deskwork758

development tool.....425

differently sized hands793

direction turning550

directional intention identification

.....784

disassemblability46

discounted utterance.....825

discourse analysis.....825

dispatch system442

distance-type fuzzy reasoning

method.....784

DNA similarity matching.....247

document clustering624

double-deck elevator systems487

E

Eco-design46

Eco-evaluation46

E-commerce.....215

elderly speech.....135

e-learning.....831

embedded system implementation

.....677

emotion.....453, 852

endogenous information.....475

estimation of distribution

algorithms497

evaluation.....729

evaluation criteria extraction.....396

evolutionary computation

.....309, 442, 487

F

face drawing606
 facial expression(s)453, 869
 fault handling523
 feature extraction.....63
 feedback.....34
 fingerprint63
 flexible manufacturing systems .431
 formal concept analysis155, 303
 FPGA.....714
 frail elderly people281
 frequency selectivity208
 functional fluid751
 fuzzy34
 Fuzzy *c*-Means160
 fuzzy constraint satisfaction
 problems425
 Fuzzy *c*-Varieties.....160
 fuzzy inference76, 256, 581, 852
 fuzzy inference system.....247
 fuzzy logic.....122
 fuzzy set167

G

game theory684
 Gaussian curvature99
 Gaussian fuzzy sets606
 General Regression Neural
 Network (GRNN).....677
 generalized mean.76, 256, 325, 581
 genetic algorithm(s)
110, 142, 288, 708
 genetic network programming
215, 442, 487, 497
 gesture generation840
 granular computing150
 graph partitioning408
 graph spectral decomposition179
 group adaptation.....813
 group recommendations729
 guaranteed cost.....567
 gyroscope751

H

Hasse diagram155
 hierarchical structure150
 HITS89
 hue185
 human interaction.....309
 human skill development831
 human symbiotic system ...776, 877
 human visual perception770
 human-machine interface303
 human-robot interaction
316, 453, 758, 877
 hybrid631
 hydrogen production735

hyperlink structure89

I

Ifbot.....453, 877
 image completion193
 image enhancement200
 image management system155
 image processing303
 image segmentation.....645
 image sharpening200
 imitation.....801
 independent component analysis
364
 indoor positioning425
 inductive coupling555
 information extraction531
 information recommendation316
 information visualization ..155, 860
 in-situ operations4
 instance-based learning167
 interacting agent model.....574
 interaction bargaining game.....831
 inter-disciplinary collaboration ..700
 intrusion detection.....708
 Iterative Bayes Clustering.....624
 iterative control224

K

k-means.....624
k-nearest neighbor167
 knowledge acquisition.....741
 knowledge radius784

L

labeled data and unlabeled data.593
 lattice structure155
 law engineering150
 layer architecture523
 learning similarity matrix.....402
 life cycle design46
 linguistic geometry684
 linguistic terms606
 link mining408
 liquid.....751
 listening test135
 localization55
 Lyapunov function224

M

manufacturing simulation.....431
 many cores CPU272
 many-objective optimization
 problem.....618
 maximum likelihood estimation 606
 Mechatroid Type C3.....869

metaheuristic110
 micro sensor751
 minimizing care.....281
 minimum spanning tree clustering
645
 mobile robot55
 mobile sensors.....13
 model-based vision638
 modularity408
 MPPT.....677
 multi agent.....215
 multiple classification ripple
 down rules741
 multirobot system.....714

N

Naive Bayes classifier.....624, 631
 natural language question and
 answer.....384
 navigation55
 nearest neighbor algorithm325
 negotiation agent840
 negotiation dialog840
 negotiation protocol215
 network inference.....325
 network science150
 neural network(s) .69, 99, 325, 735
 neural network based rendering.344
 neural network ensemble69
 Next Generation Operations
 System and Software (NGOSS) 523
 No Free Lunch Theorems475
 noise clustering160
 noise reduction364
 noise removal200
 noise robustness208
 nonlinearity.....555
 non-stationary environment.....593
 nonstationary signals.....240
 nurse scheduling problem618
 nursing-care142

O

object segmentation.....645
 omni-directional vision55
 omnidirectional walker.....784
 online documents860
 online incremental learning.....593
 optimisation layer-by-layer735
 optimization21, 110
 output feedback control567
 overcomplete signal representation
240
 overconfident bias661
 overoptimism661
 overview+detail860

P

parallel implementation.....272
 Parkinson disease281
 parser531
 particle filter(s).....272, 425
 particle filtering208
 particle swarm optimization
 110, 654
 partner robot316
 passive telemetry555
 pattern generation.....193
 PEM-electrolyzer.....735
 personal authentication.....167
 perspective projection image714
 Perturbation and Observation
 (P&O)677
 Photo Voltaic (PV).....677
 photograph browsing system390
 photographmanagement system.390
 photometric stereo.....99, 344
 physiognomic features869
 planetary rover4
 planning540
 portfolio optimization.....464
 posture estimation638
 power method.....89
 predictive modelling.....735
 premise variables.....567
 pre-operation793
 principal component analysis.....869
 process management512
 project management512
 project planning.....512

Q

QVM.....34

R

RDF graph.....384
 reading860
 real environment.....425
 recommendation system.....631
 recommender system(s)654, 729
 recyclability46
 reinforcement learning801
 relative distance measurement ..714
 relevance34
 rising trend661
 robot arm770

robot partners309
 robot UI.....316
 robust and stochastic optimization
574
 robust feature extraction208
 robust fixed point transformations
224
 rotated pattern193
 rough voice.....135
 RSS631
 RSSI425

S

scheduling21
 scheduling problem442
 search problem684
 self-calibration.....99, 344
 self-sufficiency877
 semantic web384
 semidefinite programming402
 semi-supervised learning.....593
 sensor networks309
 sequence visualization.....4
 service composition.....540
 service robot.....770
 Service-Oriented Architecture
 (SOA)523
 shape modeling160
 shape recovery344
 short tandem repeat.....247
 short-term forecasting69
 signal processing63
 similarity654
 simple recurrent network453
 simulated annealing.....21
 Slotine-Li adaptive controller ...224
 SN ratio estimation364
 social position813
 soft-computing.....776
 solar power generation69
 sound generation288
 sound source direction208
 spacecraft commanding.....4
 spectral analysis135
 spiking-neural network.....770
 splitmerging conditions375
 spontaneous conversation.....825
 state value802
 stereo image645
 stereo vision160
 stock material574

spacecraft commanding28, 142

T

tabu search.....21
 Takagi-Sugeno fuzzy systems....567
 target tracking.....13
 taxi442
 template matching531
 text classification.....142
 thinning algorithm.....28
 total knee arthroplasty.....122
 traffic prediction497
 trajectory generation.....550
 transformed domain signal
 processing240
 tree structure.....375
 TSP21
 twelve-tone technique288

U

uDEAS550
 ultrasonic test image128
 unscented Kalman filter555
 unsharp masking200
 urge system.....877

V

visual hull algorithm122
 visualization.....150, 303, 425, 618
 voice activity detection364

W

walking support.....784
 Web.....531
 web graph.....89
 web site evaluation.....396
 Weighted TF-IDF631
 welfare281
 wheelchair281
 work relatedness.....353
 wrapper531
