

Keyword Index of Journal of Advanced Computational Intelligence and Intelligent Informatics Volume 8

4-directional contour tracking.....385

A

active monitoring.....488
 adaptive block management.....573
 adaptive compensation553
 adaptive product modeling544
 adaptive scheme437
 additive noise.....613
 agent-based software engineering..2
 agents.....2
 anytime compilation.....488
 anytime description language488
 anytime development platform .488
 anytime systems488
 approximation.....495
 arbitrarily shaped cluster.....115
 associative memory56
 associative.....252
 asymmetric similarity.....115
 automatic control.....426
 automatic video recording181

B

back propagation627
 Bayesian network93
 BDI agent-based software
 development process2
 behavior-based control260
 behavior-based robotics.....269
 Bi-gram index.....573
 biped walking45
 building block.....421

C

CDMA482
 character extraction200
 Choquet integral252
 circuit design507
 classification of remotely sensed
 image216
 climbing robot.....260
 clustering121
 CMM39
 co-evolution.....356

collision avoidance.....243
 color constancy.....29
 color instance-based reasoning ..639
 color restoration639
 combinational circuits507
 complex algorithm514
 composite fuzzy measure252
 computer animation.....223
 computer-aided design507
 computer-assisted decisions544
 conceptual design.....454
 confirmatory factor analysis284
 contrast operators29
 control system313
 control.....535
 convergence627
 CORBA7
 coupled chaotic system582

D

data fusion56
 data mining.....633
 decision support system.....23
 decision tree332
 decision-making252
 denial of service369
 descriptor system.....362
 differences in knowledge168
 differential evolution591
 differentiation252
 digital watermarking390
 direct-drive manipulator.....324
 dissociated culture100
 distributed sensory system403
 distributed system.....7
 DNA computing295
 document image analysis200
 DP matching.....200,208
 dynamic color object recognition 29
 dynamic environment.....243
 dynamic obstacle.....350

E

EM algorithm150
 energy conservation.....495

entropy regularization566
 evaluation criteria336
 evolutionary computation.....336
 expert-knowledge gating410
 exploratory factor analysis284
 extended symmetrical optimum
 method499
 extraction150

F

Face detection.....130
 face recognition.....379
 faculty development181
 fault detection.....431
 feature extraction.....284
 feature selection84
 finite state machine260
 fisherface method379
 Fourier analysis431
 full-text search.....573
 fuzzy aggregation method.....379
 fuzzy clustering397,566
 fuzzy cognitive maps369
 fuzzy controller356
 fuzzy controllers.....499
 fuzzy integral.....379
 fuzzy logic.....260,426,613
 fuzzy modelling.....442
 fuzzy PD control324
 fuzzy relation.....72,373
 fuzzy582,633

G

Gabor filter130
 Gaussian mixture models.....566
 generalization84,621
 generalized ability108
 generalized associative memory ..56
 genetic algorithm.....421,591
 genetic algorithms507
 genetic programming582
 genre tree.....530
 gesture recognition.....150
 Gram-Schmidt algorithm514

H

HanSaRam.....45
 hard c-means599
 hardware testing523
 hardware-design verification.....523
 hidden Markov models302
 hierarchical compilation.....488
 higher order local autocorrelation
140
 HMM.....156
 homogeneity analysis.....397
 horizontal and vertical edge.....385
 HSI385
 human performance.....442
 human sensation.....302
 humanoid robot45
 human-to-machine interface.....530
 hybrid genetic algorithm.....437
 hybrid robot architectures269

I

image compression and
 reconstruction72
 image compression/reconstruction
373
 independent component analysis
216,390
 induction motor431
 industrial workers.....442
 information retrieval.....332
 initialization621
 integration of visual and audio
 information190
 intelligent control426
 intelligent engineering.....544
 intelligent model representations
544
 intelligent scaling control.....275
 intelligent system93
 internet.....275
 intrusion detection.....369
 inverse kinematic task.....514
 inverted file search573

K

Kalman filter535
 kernel trick566
 kinematic singularities514

L

labeling208
 Lagrange dynamics362
 learning vector quantization.....140
 lecture archives.....181
 life-cycle assessment.....23
 linear quantization72

linguistic hard c-means599
 LMI region362
 Local PCA.....130
 logistic regression.....84
 Logit-Logistic Fuzzy Color
 Constancy Algorithm (LLFCC)...29
 log-polar mapping140
 LPD system362
 Lyapunov stability553

M

machine learning332
 margin.....108
 maximum entropy principle.....275
 MBL108
 MCE/GPD108
 median filter313
 median filtering469
 medical diagnostics410
 memory.....14
 metrology.....39
 microstatistic filter.....482
 microtunneling system426
 missing value.....397
 mobile robot control.....356
 mobile robot243,295
 model selection.....84
 modified Nash GA356
 modular neural network410
 MOEA454
 monitoring535
 monocular camera140
 morphological wavelets.....373
 motion capture.....477
 motion characteristic168
 motion estimation.....150
 motion representations and analysis
477
 motivational variables269
 motor schemas.....269
 multielectrode array100
 multilayer neural network...621,627
 multiple cameras181
 multiple regression analysis.....168
 multiplicative neurons460
 multi-robot.....14
 multi-user detection receiver.....482
 music recognition.....208

N

nano-scale.....39
 natural phenomena223
 N-bit parity problem460
 network security369
 neural dynamics243
 neural network.....275
 neural networks108,302,313,460

noise pollution.....442
 noise reduction613
 nonholonomic constraint.....243
 nonlinear identification627
 nonlinear regression460
 nonlinear robust.....156
 non-linear single-stage receiver.482
 NON-stationary environment....121
 numerical analysis.....495

O

observing students.....181
 obstacle detection469
 occlusion.....156
 ocean model606
 oceanic search and rescue operation
606
 OCR.....200
 online unsupervised learning121
 optical flow.....150,156,469
 optimal control260
 optimal solution.....336
 ordered structure373
 output conversion diagram.....156

P

path planning.....237,243,295
 pattern learning223
 Perceptron.....84
 perceptual space reduction.....284
 perceptual wavelet.....613
 PMAC.....324
 pointing device140
 position control324
 possibility theory.....23
 postoperative.....599
 potential field14
 prediction.....499
 predictive fuzzy control350
 principal component analysis....168
 printed Japanese character
 recognition.....200
 probabilistic model.....93
 probabilistic reasoning93
 probability density distribution..190
 probe detection.....369

Q

quadrant photo diode39

R

Radial basis function network ...130
 regional pole placement362
 relational data.....115
 reliability optimization problem 437
 remote operation7
 RGB.....385

ridge regression84
 robot behavior learning284
 robot control553
 robot535,582
 robotic helicopter237
 robotics313
 robust fuzzy clustering115
 robustness390
 rough set332

S

safety-critical systems523
 scheme421
 searching14
 self-organizing map223
 semantic concept633
 sensitivity analysis499
 sensor fusion313
 short term data156
 shrinkage method84
 similarity measure302
 simplex algorithm514
 simulated annealing336
 sliding control553
 soft computing72
 Soft DNA403
 software testing523
 SOM algorithm385

spatial consistency216
 speaker tracking190
 speech enhancement613
 stability analysis499
 stationary environment121
 statistical learning93
 stave extraction208
 structural621
 subjective impression168
 supplier evaluation415
 support vector machine84
 support606
 surveillance639
 syn flooding attack369
 synaptic potentiation100
 systems validation and verification
523

T

teleoperation275
 template matching469
 testing535
 time information190
 tool156
 topology representation121
 tracking control243
 tracking14
 trajectory following237
 truck delivery and dispatch

problem (TDDP)336
 TV control530

U

UAV237
 Uni-gram index573
 user adaptation530
 user preferences530

V

vector space model633
 vehicle control350
 View-invariant130
 virtual reality302
 virus theory of evolution421
 VOC analysis diagnostics415

W

walking gait45
 wavelet analysis431
 wavelet decomposition379
 weight decay84
 weighted linear combination190

X

XOR problem460
