

Keyword Index of Journal of Advanced Computational Intelligence and Intelligent Informatics Volume 9

constrained method282
2-D/3-D registration181

A

action dependent adaptive critic ..23
action selecting268
active queue management92
adaptive description of model
objects415
adaptive user interface643
adaptive vector quantization
.....590,599
aerobic534
agent-based approach329
agent-based modelling399
agent negotiation314
ambient illumination46
anaerobic534
approximation540
artificial immune system175
artificial intelligence211
auto extraction693
autonomous mobile robot268
auto target recognition698
axioms61

B

B+ tree13
B-ternary logic661
backlash379
bacterial algorithm669
base isolation100
Bayesian regularization226
behavior based modeling415
bi-capacity484
building block423

C

cancer recognition system244
capacity127
Cartesian coordinates387
cascade correlation226
case-based reasoning556
case frame304
cellular automata142
change detection46
character recognition127
Choquet integral477,615

classification514
cognitive ergonomics31
color630
communication model346
compensating268
compensation of propagation delay
.....346
competitive learning166,590
competitive neural network235
complex systems399
computational and symbolic
processing297
computational cost590
computational intelligence654
computation tree logic321
congestion control92
constrained optimization282
context39
context knowledge grid39
control379
creation and reduction599

D

database13
decision making607,677
decision support systems53
defeasible argumentation53
degraded image580
degree of belief61
description of human intent415
design677
design intent based knowledge .415
development277
diagnosis556
differential evolution540,549
differentiation615
discrete-continuous scheduling ..368
distorted probability measure467
distortion467
disturbance control669
dominant region159
dynamic personal space159

E

elastomagnetic sensor372
electric load134
electronic dictionary304
elicitation65

equinumber of inputs599
error reduction372
even-n-parity problem430
evolution algorithm368
evolutionary algorithm540,622
evolutionary computation430
expert system534,693
eye camera440

F

facial expression recognition637
fault tolerance346
feature extraction637
feature selection570
field development684
fingerprint175
fluoroscopy image181
force379
forecasting134
fractal337
fractal image coding80
fractional calculus379,395
fractional derivative395
fruitfly277
fusion axis196
fuzzy211,677
fuzzy-neuro system290
fuzzy control92,100
fuzzy data461
fuzzy expert system70
fuzzy flip-flop661
fuzzy image matching181
fuzzy logic31
fuzzy matrix563
fuzzy matrix inequality563
fuzzy measure467,477
fuzzy measure identification467
fuzzy modeling196
fuzzy querying13
fuzzy rating461
fuzzy rationality65
fuzzy regression analysis461
fuzzy relation563
fuzzy set498
fuzzy set and subgroup511
fuzzy sets684
fuzzy system526
fuzzy systems556

G

game strategy acquisition.....203
 generalized generation gap model
549
 generalized mean.....514
 genetic algorithm.....423
 genetic algorithm (GA).....150
 genetic algorithms134,290
 genetic network programming...430
 global optimal searching80
 global optimization.....549
 GMDH.....257
 group.....511
 group behavior simulation159
 group motion analysis.....159

H

hard real-time systems346
 hesitation65
 hill climbing method.....314
 Hopfield model.....127
 hub277
 hybrid classifier.....244
 hybrid intelligence.....297

I

image analysis453
 image coding599
 image compression.....590
 improved long-term debt rating
 model.....615
 incomplete comparison607
 indiscernibility relation502
 inductive learning machine329
 inductive specification.....321
 inference mechanism.....526
 integrated intelligence control...211
 integration.....630
 intelligent control23
 interactive system.....637
 interest440
 interpolation.....526
 interpretability196
 iterated function system (IFS)80
 ITS106

K

k-means.....654
k-monotonicity.....484
 knowledge acquisition.....693
 knowledge interoperation.....39
 knowledge management.....39

L

Lagrangian method121
 Lagrangian systems.....387
 lattice661
 least squares method461
 left ventricle361

local dense region277
 Lukaszewicz' logic.....506
 Lyapunov stability387

M

machine learning570,693
 magnetic resonance image70
 max-min logic661
 maximum-distortion control.....166
 medical image recognition.....257
 medical imaging70
 membership function.....698
 memory architecture.....430
 meniscus70
 method of analogy399
 minutiae175
 MiroSOT.....409
 mirror symmetry problem.....430
 mixture model643
 mobile robots.....409
 modeling.....526
 modified box-count method.....337
 modifier506
 modifier algebra506
 Moebius transformation511
 monitoring114,556
 morphogenesis.....142
 motor control.....669
 MRI361
 multi-agent.....314
 multi-category based feature
 selection.....244
 multiagents5
 multi agent systems.....409
 multiattribute utility theory477
 multiclassification.....698
 multilayer perceptron290
 Multilayer Perceptron learning ..580
 multimedia database.....31
 multiple criteria decision making
498

N

natural language637
 natural language processing.....304
 neural network
121,203,297,372,540,693
 neural network application.....226
 neural networks23,257,607
 neural structure optimization
 method290
 neuron-insertion.....590
 non-rectangular configuration...337
 nonlinear optimization282
 nonlinear process control.....23
 nonlinear system identification ..257

O

obstacle detection622
 occluded image181

odor recognition system.....290
 offshore systems.....684
 online shopping18
 ontologies5
 optimal algorithm669
 optimal codebook design166
 optimal performance353
 optimization.....142
 ordered sets and lattices.....502
 order of ambiguity661
 organism142
 orthogonal bipolar vector.....580

P

paper machine556
 parallel execution121
 parent-centric recombination549
 particle filters643
 particle swarm optimization.....282
 partition space599
 partner robot.....654
 pattern recognition580
 personalization.....18
 PID control.....669
 planning114
 plant recognition630
 pose measurement150
 precision of distributed clocks...346
 preference assessment607
 presentation picture440
 production networks.....399
 product modeling415
 projective drawing.....453
 psychological test.....453

Q

quasi-order.....498

R

radial basis function.....540
 range data630
 Real-Time150
 recommenders18
 recommender systems53
 reheating furnace.....211
 reinforcement learning23,203
 resolution353
 retrieval.....127
 rigid body dynamics387
 RoboCup.....268
 robotics379
 rough approximation operators..502
 route guidance106

S

saliency235
 satisfiability problem.....121
 scale-free network277
 scene memory235
 scheduling problem.....314

scheme	423	subjective probability	61	travel mode choice	329
Schweizer & Sklar' s implications	514	support vector machine.....	698	type.....	467
segmentation.....	70	support vector machines	134	type-based approach.....	643
self-organization	314	surface-strips model	150	U	
self-organized learning	235	symbol generation	297	uncertainty interval.....	65
self-organizing map.....	654	system verification	321	uniform tessellation	353
self-organizing system.....	106	T		V	
self-recognition.....	175	tagging	361	variational analysis	395
semantic analysis.....	304	target vector.....	580	vector quantization	166
semiatom	477	task classification	114	video surveillance.....	46
sensor measurement	372	temporal coding.....	235	virus theory of evolution.....	423
sentence generation	304	text categorization	570	vision systems for robotics	622
short-term memory.....	268	text mining	570	visualization.....	31,196
similarity measure	514	text representation	570	visual perception	654
simulated annealing.....	80	the bipolar Möbius transform	484	visual servoing	150
soccer playing robots	409	the Choquet integral.....	484	voltage control.....	226
social dilemma	329	thresholds.....	534	W	
social judgment	461	time delay	372	wall motion analysis	361
space-variant tessellation.....	353	topological base.....	511	weight adaptation	127
spatial representation.....	18	topological representation	31	Z	
sport medicine.....	534	topology.....	498	Zadeh algebra.....	506
stabilizer	511	total knee arthroplasty.....	181		
stereo vision	630	trace of a fuzzy relation.....	563		
stereovision.....	622	tracking	353		
strong/weak temporal order relation	321	traffic signal control	106		
structural control	100	transformers tap changers	226		
structural design	142	transparency.....	196
