Advanced Computational Intelligence & Intelligent Informatics

In Cooperation with
International Fuzzy Systems Association (IFSA),
Japan Society for Fuzzy Theory and intelligent informatics (SOFT),
Brazilian Society of Automatics (SBA), and
Society of Instrument and Control Engineers (SICE, Japan), and
John von Neumann Computer Society (NJSZT)
Vietnamese Fuzzy System Society(VFSS)

AIMS & SCOPE

This journal focuses on advanced computational intelligence, including the synergetic integration of neural networks, fuzzy logic and evolutionary computation, so that more intelligent systems can be built for industrial applications. This new field is called the computational intelligence or soft computing which has already been studied by many researchers, but no single integration journal exists in the world. This new journal gives readers the state of art of the theory and its applications of the Advanced Computational Intelligence & Intelligent Informatics. The topics include, but are not limited to; Fuzzy Logic, Neural Networks, GA and Evolutionary Computation, Hybrid Systems, Adaptation and Learning Systems, Distributed Intelligent Systems, Network Systems, Multi-media, Human Interface, Biologically Inspired Evolutionary Systems, Artificial Life, Chaos, Fractal, Wavelet Analysis, Scientific Applications and Industrial Applications.

CALL FOR PAPERS

Paper Submission: Send 3 copies to the following address: JACIII Editorial Board, Fuji Technology Press Ltd., 2-29, Toranomon 1-chome, Minatoku, Tokyo 105-0001, Japan
Phone: +81-3-3508-0051, FAX: +81-3-3592-0648, E-mail address: jaciii@fujipress.jp
