

# Keyword Index of Journal of Robotics and Mechatronics Volume 19

-cell.....524  
3D.....198  
5-aminolevulinic acid.....339  
8-Cell pattern .....85, 203

## A

actin stress fibers.....557  
action prediction.....416  
activity .....656  
activity of daily living.....667  
actuator .....232, 324, 524, 612  
adaptation .....3  
adaptive behavior selection.....388  
a design method .....402  
ad hoc network.....459  
age effect .....715  
android.....324  
antagonism.....423  
antagonistic mechanism .....27  
approximate decision .....68  
arm dynamics .....448  
articulated hand .....308  
artificial muscle .....27  
artificial ventilating apparatus...331  
aspiration .....331  
assistive device .....612  
attribution of own actions .....482  
automatic pouring system .....205  
autonomous .....489  
autonomous mobile robot .....298

## B

back flow.....524  
barcode land mark.....646  
behavior-based robotics.....298  
bioengineered organ germ method  
.....506  
biology.....535  
biomanipulation.....585  
bipedal walking .....637  
biped robots.....272  
biped walking.....353  
blimp type aerial vehicles .....166  
blood vessel.....535  
brain.....369

## C

care service.....683  
caste .....369  
caste differentiation.....429  
catheter .....331  
catheter driving mechanism .....331  
cell chip.....519  
cell handling.....585  
cell manipulation.....506  
CFD .....166  
chemical vapor deposition .....512  
classification.....85  
cleaning robot.....489  
compliant mechanism.....141  
concrete frame avoidance.....13  
connector .....232  
construction machinery.....60, 114  
contact model .....181  
cortical neuron model .....409  
cricket.....388, 466  
cyclic stretching .....557

## D

decision making .....416  
degrees of freedom.....160  
delayed feedback control (DFC)....3  
dementia.....691, 698, 724  
digital camera.....77  
discriminant analysis.....416  
dissociated culture system.....592  
distributed system.....339  
distributed tactile sensor .....42  
Distribution.....544  
DNA manipulation .....569  
dynamical environment.....474  
dynamical systems .....395  
dynamic properties.....402  
dynamics.....353  
dynamic walking .....160

## E

educational material .....223  
edutainment .....212  
elderly.....698

elderly individuals.....683  
embodied artificial intelligence..212  
EMG .....212, 324, 381  
emotion model.....315  
endothelial cell .....535  
endothelial cells.....557  
energy consumption .....637  
energy efficiency .....353  
enveloping grasp .....308  
environmental adaptation .....436  
environment cognition.....395  
experimental analysis .....482  
experimental robotics .....272

## F

face robot.....324  
facial expression.....315, 324  
feed-forward adaptation .....474  
feedback controller.....423  
feedforward control.....205  
finger partitioning.....134  
FKP.....174  
flash .....77  
floor image .....34  
flow rate control.....205  
fluctuation.....429  
Fluorescent imaging .....544  
focal adhesions .....557  
focused ion beam .....512  
foraging behavior .....466  
force control .....604  
force feedback .....60  
forward model .....482  
four wheel drive .....264  
FPGA.....223  
fuzzy logic.....592

## G

GaeaDrive\$textregistered\$ .....308  
galvanotaxis .....190  
GIS .....174  
GPS-Gyro/IMU .....174  
graph map.....298  
graspless manipulation .....444  
group home .....698

- H**
- haptic interaction .....42
  - Hebbian learning .....315
  - heel-off .....353
  - Hep-G2 cell .....550
  - heuristic guided A\* search .....114
  - hidden Markov models (HMM).....444
  - highway alignment .....174
  - hippocampus.....364
  - hopping robot .....258
  - human-robot interaction .....691
  - human-wheelchair system .....181
  - human dynamics .....637
  - human interface .....715

  - prism object shape .....85

probabilistic neural network .....68  
 proportion control .....429  
 prosthetic hand .....381  
 PSoC .....223  
 psychotherapy .....691

## Q

quadruped .....160  
 quadruped walking robot .....13  
 quasi-passive running .....3

## R

range measurement .....77  
 reaching .....715  
 reaching movement .....474  
 real-time adaptation .....448  
 real-time tunable spring .....27  
 RECS concept .....646  
 recurrent neural networks .....395  
 reduction gear .....97  
 redundant manipulator .....448  
 reflectance ratio .....77  
 regenerative medicine .....506, 535  
 regulatory affairs .....500  
 rehabilitation .....656  
 relative disparity map .....290  
 reminiscence .....724  
 reproduction .....369  
 rhythm generator .....3  
 ride quality .....181  
 robot .....60, 68, 232, 436  
 robot finger .....134  
 robot hand .....134  
 robotics .....223  
 robot manipulator .....106  
 robot therapy .....691  
 rubber artificial muscle .....619

## S

safety confirmation .....676  
 sampling based planner .....114  
 schizophrenia .....482  
 search and rescue .....252

self-organization .....429  
 self-organized skin sensor network  
 .....42  
 self-stabilizing .....3  
 semi-universal hand .....308  
 senior citizen .....676  
 sensory-motor function .....474  
 setting/clearing table .....646  
 shape optimization .....141  
 simulations .....482  
 single cell analysis .....528  
 small range image sensor .....290  
 small world .....459  
 SMMS .....585  
 social insect .....369  
 soft landing .....258  
 soft tactile sensor array .....85  
 somatic reflex .....629  
 sound localization and separation  
 .....281  
 spike-timing dependent plasticity  
 .....409  
 SPR imaging .....519  
 stability of running .....374  
 stair climbing .....258  
 standing assistance .....604  
 standing up motion .....619  
 stem cells .....500  
 step climb capability .....264  
 step climbing .....52  
 stiffness analysis .....272  
 surface plasmon resonance .....519  
 swing of a pendulum .....395  
 system integration .....339

## T

tactile information processing .....85  
 tactile spatiotemporal differential  
 information .....85  
 tele-operated mobile robot .....281  
 telemonitoring .....683  
 teleoperation .....577  
 television .....683  
 termite .....429  
 terrain-adaptive gait .....13  
 terrain negotiation .....423

tissue engineering .....500  
 tooth .....506  
 topology optimization .....141  
 touch-screen .....715  
 tracked vehicle .....34  
 trajectory planning .....190  
 trapezoidal velocity .....97  
 turbulent flow .....166  
 two-fingered micro hand .....577  
 two-photon microstereolithography  
 .....565

## U

ultrasonic location sensor .....667  
 upcoming operation .....148

## V

validation .....500  
 variable wheel diameter .....252  
 ventilator .....331  
 vibration of 2-DOF system .....258  
 virtual reality .....698  
 virus manipulation .....569  
 visual tracking .....34  
 VR simulation .....585

## W

walker .....604  
 walking assist .....629  
 walking robots .....272  
 water environment .....512  
 wearable power assist .....619  
 wearable system .....656  
 welfare robot .....619  
 wheelchair .....264, 612  
 wheel control .....52  
 whole-body vibration (WBV) .....181  
 working efficiency .....466

## Y

yeast cell .....577
