## Journal of Robotics and Mechatronics

### Cumulative Keyword List

### Volume 20

-TAS .....273  
6-DOF acceleration .....116

## A

acoustic information .....578  
acquisition of rolling-over motion  
.....241  
active cord mechanism .....302  
active scope camera .....490  
actuation mechanism .....490  
adaptive control .....719  
adaptive gait .....801  
adaptive gait strategy .....912  
Affine Transform .....750  
a flight of stairs .....221  
agriculture .....228  
AirHopper .....526  
amoeboid locomotion .....449  
angleworm motion .....302  
angular velocity .....116  
ankle joint torque .....289  
arc feet .....709  
arousal level .....880  
articulated system .....675  
artificial sound .....731  
augmented reality .....441  
autonomous exploration and  
learning .....358  
autonomy .....350

## B

baby-like motion .....456  
bifurcation .....559  
bimanual operation .....585  
binocularly unpaired part .....159  
bio-inspired .....68  
biochip .....273  
biomechanics .....854  
biosensor .....38  
bipedal walking .....709  
biped humanoid robot .....739  
biped robot .....206, 793  
biped walking .....98, 413, 775  
braking mechanism .....887  
breast pump .....456

## C

calibration .....595  
cam mechanism .....456, 533  
catheter .....250  
causality detection .....378  
Chiba University .....818  
cholesterol oxidase .....38  
ciliary vibration drive .....490  
circadian rhythm .....880  
climbing steps .....403  
cognitive science .....595  
collision and contact with human  
.....634  
collision avoidance .....68  
communication .....824  
compliance with measurement .....824  
connected crawler .....106  
construction machinery .....602  
construction work .....481  
context .....515  
contingency learning .....378  
contour following .....481  
control by phase declination .....234  
control parameter tuning .....578  
coordinated control .....394  
CORBA .....82  
cortico-spinal-musculo model .....358  
crawler .....228

## D

data association .....367  
deformable object .....550  
Delta Hexaglide platform .....7  
dexterity .....7, 550  
dial-a-ride .....810  
direct teaching .....213  
discrimination threshold .....501  
distributed 3-axes force sensors .....241  
double joint mechanism .....106  
driver .....880  
dsPIC .....473  
dynamic modeling .....178  
dynamics of machinery .....61

## E

ecological balance .....386  
education .....280  
elastic beam .....316  
elastic rods .....302  
elderly person .....641  
electric wheelchair .....846  
electromagnetic measurement .....189  
embodied interaction .....650  
embodiment .....358  
emergence .....386  
EMG .....863  
emotion .....731  
endovascular intervention .....441  
energy consumption .....854  
epistemic action .....515  
ER fluid .....634  
estimation .....541  
event driven method .....661  
expandable mechanism .....887  
expandable ratio .....887  
experiment .....75  
exploration .....24

## F

facial skin thermal image .....880  
fault-tolerant control .....903  
fault diagnosis .....903  
feed-forward control .....89  
feedback modulator .....695  
flexible-base manipulator .....621  
flexible cable .....490  
flexible micro actuator .....436  
flexible robot .....793  
fluid resistive bending sensor .....436  
force control .....280  
force display communication .....872  
forced vibration .....61  
force dynamometer .....316  
force operating joystick .....578  
force sensor .....316  
four-legged locomotion .....234  
four-wheel-drive .....846  
free gait .....661  
frequency analysis .....98  
friction compensation .....695

friendly human interface .....872  
 fuel economy .....75  
 fuel injection .....75  
 furniture model.....213  
 fuzzy system.....719

**G**

gait algorithm .....661  
 gait analysis .....289  
 gait rehabilitation .....836  
 gait strategy .....801  
 gearbox .....311  
 glucose oxidase .....38  
 grasping information .....18  
 gripper .....675

**H**

hand motion.....429  
 handshaking.....650  
 harmonic drive® .....311  
 health monitoring system.....38  
 heel-contact and toe-off motion.....

 human-carrying robot.....775  
 human-interactive robot .....473  
 human-machine interface .....260  
 human-machine system.....595  
 human-robot interface .....515  
 human adaptive mechatronics  
 (HAM) .....578, 585, 595  
 human dynamic characteristics ..585  
 human engineering .....828  
 human interaction.....650  
 human interface.....189, 828  
 human model.....896  
 human motion simulator .....739  
 human motor control.....420  
 humanoid .....241  
 human robot interaction .....610  
 human sensitivity .....731  
 hydraulic actuator.....695  
 hydraulic excavator .....481

**J**

joint attention .....378  
 joint torque .....854  
 Just-In-Time approach.....420

**K**

Kalman filter .....116  
 kalman filter .....135  
 Kalman filter .....171, 367  
 Kashiwa .....818  
 keyword extraction .....567  
 kinematics .....47  
 kinetics.....289

**L**

large rough terrain .....801, 912  
 leg-wheel hybrid.....206  
 leg-wheel hybrid jumping robot .....  
 .....526  
 leg-wheel robot..403, 661, 801, 912  
 legged locomotion .....785  
 lifting action .....731  
 linear motion .....311  
 locomotion changing.....887  
 locomotion interface.....836  
 locomotion robot .....793

**M**

magnetically-driven actuation ....273  
 magnetic declination .....541  
 magnetic trackers .....151  
 manipulator.....675  
 markerless.....322  
 mask scale adjusting .....159  
 master hand .....18

 MRI .....863

multi-laser range sensors .....367  
 multiple-model estimator .....903  
 multiple configurations .....106  
 multiple mobile manipulators ....394  
 multiple mobile robot.....24  
 muscle strength .....863  
 Musculo-skeletal model .....863  
 musculo-skeletal model.....854

**N**

navigation .....189  
 neural model.....358  
 Neural Network.....750  
 neural network .....757, 896  
 NIRS.....836  
 non-invasive ultrasound diagnosis  
 and treatment.....89  
 nonlinear admittance control.....775  
 nonlinear system .....171, 178

**O**

object manipulation .....550  
 Omni-Ball.....125  
 omnidirectional movement.....125  
 omnidirectional robot.....846  
 on-demand bus .....810  
 ON-OFF control.....793
