

2009

Journal of Robotics and Mechatronics

Cumulative Keyword List

Volume 21

μ -TAS209, 229
 1-step GA359
 3-D583
 3-D pose measurement709
 3D environment model574
 3D force information780
 3D hand pose estimation749
 3D modeling193

A

AC induction motor drives113
 active camera614
 active camera head720
 active force sensing236
 active vibration reducer642
 adaptive control36
 adaptive gait12, 285, 419
 adaptive structure172
 aerial robot277
 agri-robot583
 ambient intelligence460, 507
 amount of gustatory sense81
 AMSIP359
 Apparent Movement87
 arch structure172
 arm movement20
 asbestos186
 asparagus583
 assembly support135
 attentive workbench (AWB)135
 attitude variation590
 auditory perception223
 automation186
 avalanche216
 avoidance manipulability359

B

binocular viewing773
 bio-mimetics121
 biped gait311
 biped robot403
 biped walk in outdoor403
 built-in actuator179

C

car-like mobile robot57
 cell698
 cell production system135
 chained form57, 66, 541
 circle formation3
 climbing-support robot621
 climbing robot621
 communication758
 competition245
 concentric circle469
 connected component labeling726
 consensus469
 constraining mechanism403
 contact conditions236
 contact force and moment236
 continuous effects consideration
647
 cooking support498
 cooperative exploration44
 corrosion568
 cross-traffic accident773
 cubic polynomial deformation780

D

damping control642
 data size758
 defect568
 design245
 differential geometry57, 66, 541
 distance transform726
 dummy head223
 dynamic model460
 dynamic remodeling332

E

elastic body780
 emergent approach3
 emotional model317
 encapsulation229
 endoscopy412
 energy-autonomous353

environmental map332
 environment information443
 episode memory317
 error analysis680
 exoskeleton614
 experience-based education384
 external force compensation104
 external panel mechanism172

F

feedback control621
 feedback error learning720
 field programmable gate arrays
113
 fingertip positioning726
 fish-eye680
 fluorescence533
 force control301
 force measurement260
 Fourier transform128
 fovea sensor121, 128
 fruit grading533
 fruit quality533
 fuzzy427

G

gait strategy419
 GPS193, 394
 guidance394

H

hand feature extraction726
 hand model calibration739
 hand motions20
 haptic device554
 haptic feedback384
 harvest583
 head movement223
 high-speed camera698
 high-speed image processing698
 HMM-based524
 Hough transform726

human-robot cooperation324
 human-robot interaction.....443, 739
 human activity observation515
 human detection28
 human interaction.....267
 human interface.....515
 human model.....324
 human motion recognition597
 humanoid robot.....311, 478
 human skin muscle model
146, 156
 human visual scanpath765
 hybrid planning647

J

JPEG 2000.....758

K

Kalman filter394
 kernel104
 Kukanchi443, 489, 657

L

Lamb wave568
 large rough terrain.....419
 learning.....44
 leg-wheel robot.....12, 285, 419
 level set method698
 librarian robot.....507
 local interaction.....469
 localization460
 local vision3

M

machine learning498
 machine vision533
 magnetically driven microtool
209, 229
 man-machine-cooperative system
252
 man-machine system.....628
 manipulator.....590
 map building.....672
 massage146, 156
 mechanics and robotics216
 mechatronics.....245
 mechatronic systems647
 medical micro robot.....74
 micro-assembly412
 micro-fluidic systems.....179
 micro-mechanism3
 microactuator.....209
 microarm412
 micro crawling robot.....74

microfabrication260
 microgripper412
 micro rotary reactor179
 microscopic observation.....186
 minute parts635
 mobile mapping system193
 mobile robot12, 28, 95, 267
285, 332
 motion control.....12, 285
 motion feed-forward.....709
 motion planning44, 311
 movable roof pavilion172
 moving robot.....216
 MRI compatibility20
 multi-autonomous-robot3
 multi-fingered robot hand36
146, 156
 multiphase flow229
 multiple mobile robot system44

N

nasal skin temperature81
 natural product processing301
 navigability measure95
 navigation394
 network758
 neural networks478
 neuro.....427
 neurorobotics478
 nonholonomic system
57, 66, 541
 nonholonomic vehicle252
 nonlinear control57, 66
 nonlinear dynamics590
 nonlinear filter590

O

object manipulation36
 object modeling672
 object recognition.....672
 object segmentation.....672
 omnidirectional image sequence.....
574
 omnidirectional vehicle427
 omnidirectional vision.....376
 ontology489
 optical tactile sensor.....780
 orientation.....568

P

PaLM-tree.....720
 parallel computing.....698
 parameter setting method.....324
 partial template.....689
 particle filter460

partner robots317
 passive dynamic walk403
 perception-assist614
 periphery visual field773
 Phantom Sensation87
 photolithography412
 piezoelectric actuator635
 playing catch773
 PLL.....342
 pneumatic driving system353
 pneumatics.....607
 pneumatic suction.....74
 post harvest533, 607
 power-assist.....252, 614
 power-assisted valve.....628
 pressure conductive rubber200
 preview control.....359
 probability28
 projector.....267
 proportional information on the
 hand images.....749

Q

qualitative analysis186
 quartz crystal260

R

random sampling311
 range sensor267, 332
 real-time prediction with dynamics
628
 reconfigurable keypad524
 redundant manipulator359
 redundant robots104
 regions-of-interest.....765
 remote operation332
 rescue.....216
 RFID.....28, 460
 RFID tag453, 507
 rhythmic movement.....342
 road management193
 robot236, 443, 657
 robot deboning301
 robot education.....245
 robot gazing.....765
 robotics245
 robot manipulator342
 robot swarm.....469
 Robot Town453
 robot vision758
 rotor flux-oriented control113
 rough map95
 rough terrain.....12, 285
 rubber artificial muscle607

S

self-impedance matching628
 self-optimization.....647
 sensing strategy236
 sensor.....260
 sensor fusion376
 sensor network453, 469
 shape.....568
 shear displacement74
 simulink113
 single camera.....749
 sit-stand assist.....324
 sketch-based navigation95
 SLAM.....689
 sliding mode.....590
 slip detection200
 sloshing.....642
 snake-like robot.....66
 snow travel216
 sorter.....209
 sound localization.....223
 space-variant image121, 128
 spatial memory515
 spatial relationship to floor689
 spiral laminar flow interfaces179
 step-on interface267
 stepwise locomotion.....74
 stereo vision28
 structural design260
 structured information environment
489
 structure from motion.....574, 680
 synchronization342

T

tactile motor87

tactile sensor.....200
 tactual sense navigation87
 tail-sitter.....277
 tangential vibration.....554
 telecontrol.....384
 telepresence223
 telescopic-arm621
 template matching using SIFT..689
 test feature classifier (TFC)597
 thermography.....81
 three dimensional measurement.680
 time-state control.....252
 torque inclination prediction628
 tractor.....394
 trajectories planning104
 transmission of vibration554
 transportation.....44

U

UAV277
 ubiquitous sensors498
 ultrasonic motor manipulandum ..20
 ultrasound597
 undulatory locomotion541
 unit quaternion709
 unspecified users749
 user-adaptive interface.....524

V

v-shaped groove guide635
 VGT.....172
 vibration sensitivity554
 view-based navigation.....376
 visibility of approaching object.773
 vision583

vision-based hand pose estimation
739
 visual analogue scale81
 VTOL277

W

walking stabilization403
 walking support.....353
 wavelet transform.....121, 128
 wavelet transformation342
 wearable robot.....607
 wheelchair427
 wheeled locomotor541
 wheeled mobile robot.....642

X

xilinx system generator113
