

Keyword Index of Journal of Robotics and Mechatronics Volume 37, 2025

- 3D environment model 1314
 3D measurement 399
 3D tracking..... 399
 3D-print..... 212
 6D object tracking..... 825
- A**
- acceleration 874
 acceleration control..... 835
 active debris removal (ADR).... 1263
 active vision 579
 actuation redundancy 1420
 adaptive cruise control 1162
 adaptive driving assistance system
 1461
 ADAS..... 1061
 aerial intelligent vehicles 796
 aerodynamics 807
 agricultural robot..... 555
 air cylinder 700
 algorithms 231
 altimeter 815
 ankle-joint rehabilitation device ... 43
 anomaly detection 284
 architecture..... 785
 arm swing..... 1534
 articulated manipulator 1508
 artificial markers 762
 artificial muscle..... 153, 162
 assembly robot 434
 assembly work 1219
 assistive device..... 700
 assistive system..... 614
 automated vehicle 1186
 automatic annotation..... 270
 automatic driving 945
 automation system for convenience
 store..... 231
 automotive engineering..... 552
 autonomous driving
 1024, 1042, 1061, 1068
 autonomous driving simulators..1113
 autonomous drone..... 1374
 autonomous emergency braking 1162
 autonomous mobile robot(s) (AMR)
 322, 466, 958, 1011,
 1127, 1304, 1314, 1355
 autonomous motion control of
 mobile robot..... 1293
 autonomous navigation control. 1314
 autonomous ship 1153
 autonomous UAV navigation 1519
 autopilot 1400
 AUV 240
 aystem 984
- B**
- behavior cloning..... 1400
 bending movement..... 13
 bin picking 301
 binocular vision..... 1230
 bio-inspired aerial vehicles 796
 biomechanics 185
 biomimetic 1581
 biomimetic locomotion 1534
 biomimetics..... 105
 bow force adjustment..... 54
 brain-computer interface..... 945
 butterfly..... 864
- C**
- cable-driven parallel robot (CDPR)
 1508
 cantilever..... 895
 center of gravity 1246
 cloud robotics..... 958
 clustering..... 1327
 cognitive robotics..... 574
 collaboration 785, 984
 collaborative learning..... 637
 collision avoidance..... 835
 communication delay 1343
 communication failure resilience 958
 communication methods 1186
 communication protocol 785
 communication-free adaptive swarm
 robotic system 1452
 computer vision..... 270
 congested highway..... 1061
 contact force control 720
 control barrier function 1172
 control system..... 500, 1230
 convenience store..... 535
 cooperative object transport 1034
 cooperative transportation. 191, 1433
 coverage control..... 1254, 1445
 crab-inspired robot 1581
 crawling robot 203
 critical brain hypothesis 99
 crosswind 1079
 cruise control..... 1392
 cyber attack detection 1087
 cyber-physical-human systems ... 456
 cyberattack 1392
 cyclic reformulation..... 1102
- D**
- daily-life support robot 574
 damping and transport control .. 1410
 data-driven 688
 data-driven control 1392
 deep deterministic policy gradient-
 based experience 1011
 deep learning..... 270, 466
 deep multi-agent reinforcement
 learning 1452
 deep reinforcement learning
 1011, 1042
 deformable linear object 335
 delay 648
 depth camera 1593
 depth image 257
 depth map..... 367

dexterous manipulation..... 444
 differential drive..... 1593
 digital image correlation 1205
 digital twin(s)..... 478, 1314
 direct signal pedal operation 1053
 directional gamma ray detector. 1137
 discrete Hughes model..... 1470
 dismantlement..... 973
 distracted driving 1162
 distributed algorithm..... 927
 distributed pressure detection 752
 disturbance compensation..... 1079
 disturbance observer 240, 1079
 domestic robots 594
 drag coefficient 510
 drag force 212
 drawer 412
 dressing assistance 710
 driver behavior 1461
 driver model..... 1053
 driving robot..... 1053
 driving simulator..... 1162
 driving with adaptive cruise control
 system 1053
 drone 799, 815
 ducted rotor 807
 dynamic compensation..... 399, 424
 dynamic environments 1499
 dynamic quantizer..... 123
 dynamics 1420
 dynamics simulation 627

E

educational-support robots 637, 1619
 EKF..... 815
 Ekiden 677
 elastic adhesive 13
 electric wheelchair 523
 electro-hydrostatic actuator..... 249
 electrostatic adhesion 23
 end-to-end 1024
 endurance 510
 energy and environment..... 552
 energy efficiency..... 249
 environmental magnetic field ... 1365
 environmental monitoring..... 1230
 error recovery..... 456
 evaluation criteria..... 604
 excavation robot..... 563
 excavator..... 984

exoskeletal structure..... 1581
 exoskeleton structure 700
 expert systems..... 594
 extension-type flexible pneumatic
 actuator..... 33
 external human-machine interface
 1186

F

factory transport..... 466
 failure prediction..... 434
 fall risk 874
 fan-shaped pneumatic soft actuator
 43
 fault-tolerant..... 1254
 feedback rate 424
 fermentation 185
 field robot..... 720
 fin shape 212
 FinRay..... 387
 five times sit-to-stand test 874
 fixed-wing VTOL..... 510
 flexible heavy objects 387
 flexible hydraulic joints 76
 flexible joint..... 627
 flexible pneumatic spherical actuator
 33
 flexible sensor 8
 flexible system 1219
 flow-crossing navigation..... 1499
 folded UAV 510
 force reduction 973
 force sensor 895
 force-based control..... 710
 forceps type..... 387
 formation control 1433
 fractional-order PID control..... 688
 frailty..... 874
 frequency entrainment 1534
 frequency response..... 1205
 FRIT 1392

G

game engine 1314
 gaze movement 1162
 general purpose service robots.... 594
 genetic algorithm 1410
 gesture interface 466
 glide..... 864

global localization..... 1365
 glovebox..... 973
 GNSS 1113, 1145, 1283
 graspability..... 348, 367
 gripper 387
 ground effect 807
 gyro 1113

H

hammer knife 555
 harvesting robot arm 64
 heart rate variability 648
 heavy-duty truck 1068
 hidden Markov model 579
 hierarchical systems 1445
 high-speed 3D vision 424
 high-speed image processing ... 1557
 high-speed robotic hand..... 918
 high-speed vision 399, 825
 human assist control..... 1172
 human face gaze..... 666
 human machine interface 500
 human-aware navigation..... 1569
 human-centered planning and control
 1477
 human-computer interaction 614
 human-inspired planning 1499
 human-like pulling motion..... 153
 human-machine cooperation.... 1477
 human-machine interaction..... 1477
 human-robot collaboration.. 478, 574
 human-robot interaction
 456, 604, 637, 1569
 human-symbiosis system 637
 hybrid locomotion..... 489
 hyper-extension unit..... 86
 hysteresis..... 43

I

identification of multiple radiation
 sources 1137
 image detection 1374
 image processing..... 535
 immobilized detection..... 1304
 impression effect 637
 IMU..... 1113
 in-hand manipulation 444
 in-pipe inspection robot 86
 indoor navigation 762, 815

industrial robot..... 348, 367
 industrial robots 731
 inflatable mechanism 54
 infrastructure coordination..... 1068
 instance segmentation 1293
 intelligent room..... 500
 intelligent spinal orthosis monitoring
 system 752
 interaction dataset 604
 internal force 883
 inverted pendulum model 909

K

Kalman filter 1343
 kernel density estimation 1283
 Kinect sensor..... 257
 kinematics 143

L

landing impact..... 627
 lane change..... 1061
 large language models..... 1452
 laser..... 523, 1602
 lead-lag motion 864
 learning function 1053
 legged robots..... 489
 LiDAR-inertial odometry..... 1145
 local localization 1365
 local minimum 1094
 localization.....322, 1127, 1153, 1355
 loco-manipulation 489
 locomotion 105
 logistics warehouse 412
 low noise 799
 Lévy walk..... 99

M

machine learning
 172, 434, 535, 742, 1461
 manipulation 731
 manual driver 1186
 marker detection..... 762
 MAV..... 864
 McKibben pneumatic actuator
 13, 123
 McKibben-type 153
 measures against animal damage 742
 mechanical analysis 731

MECS..... 984
 merging 1061
 micro flow control..... 135
 minimal surface..... 143
 mixed reality 945
 mobile platform..... 1230
 mobile robot..... 720, 762, 1343,
 1365, 1569
 mobility 222
 model predictive control 835
 model validation..... 76
 modular control..... 1519
 monitoring system..... 257
 monocular camera... 523, 1293, 1602
 monocular-SLAM 815
 motion control..... 240, 1011
 motion detection..... 742
 motion planning 1519
 motion prediction..... 710
 motorizing 555
 multi robots 191
 multi-agent systems 1445
 multi-camera system 825
 multi-end effectors 348
 multi-objective control..... 1042
 multi-robot platform..... 1545
 multi-robot system(s)..... 927, 1254
 multi-view recognition..... 579
 multicopter 807
 multiple degrees of freedom 1489
 multiple input system..... 123
 multiple robots 1433
 multirate system 1102
 multiview 310
 muscle torque 222
 muscular arrangement..... 883

N

navigation..... 1355, 1374
 navigation system..... 1145
 neural network(s) 322, 710
 Newton–Raphson method..... 1508
 next best view 579
 noise 799
 noise reduction 799
 noncircular pulley 64
 nonholonomic robots 1499
 nonlinear control 1172
 notch filter..... 1410

O

object detection 270, 284, 666,
 742, 852
 object grasp 356
 object pick-up..... 720
 object pose estimation
 292, 301, 310, 535
 obstacle avoidance 1283
 obstacle shape measurement
 523, 1602
 omni wheel..... 1420
 omnidirectional camera..... 1433
 omnidirectional mobile robot
 191, 1593
 omnidirectional mobile vehicle. 1420
 omnidirectional vision 852
 omnidirectional wheeled robot . 1410
 onboard computation 1519
 on–off valve 123
 optical control 1557
 optical flow 1327
 optimal servo system..... 1410
 outdoor environment..... 1304

P

packet loss..... 1343
 paper mechatronics 23
 PARO face direction 666
 passive gripper 1263
 passive softness..... 114
 passive walking robot 1534
 path planning..... 1137, 1374
 path-following control 1068
 pathfinding 523
 patrol 927
 pedestrian flow(s)..... 1470, 1569
 pedestrian-aware mobility..... 1499
 peristaltic motion 86
 peristaltic movement..... 185
 personal vehicle 945
 physical reservoir computing..... 105
 pinning control 1087
 planetary subsurface explorer 563
 platform..... 785
 pneumatic 162
 pneumatic actuators 909
 pneumatic artificial muscle
 64, 114, 1489

pneumatic artificial pennate muscles 1581
 pneumatic control..... 135
 pneumatic system..... 700
 pneumatics 114, 153
 point cloud 335
 point cloud map..... 1355
 point cloud processing 1327
 poisoning attack 1392
 pose estimation..... 579
 position control 114
 positioning.....1113
 positive illusion..... 614
 potential..... 883
 potential field method 1094
 prediction governor..... 1079
 predictive display 1195
 product arrangement robot..... 284
 product display robot 292
 propeller 799
 pump-controlled..... 249
 PZT 135

Q

quadrotor 1519
 quadruped robot 1246

R

range of motion 43
 RANSAC 1293
 ready-made components 76
 real-world validation..... 1034
 redundancy 883
 redundant robot 1508
 regulator 688
 reinforcement learning 1024
 remote control 973
 remote driving..... 1195
 respiration differentiating..... 257
 retractable propulsion..... 510
 retrieval and storage..... 412
 ride comfort..... 1042
 rimless wheel 1534
 robot 785
 robot arm..... 720
 robot coexistence society 677
 robot competition 574, 604
 robot control..... 399
 robot health monitoring..... 1205

robot localization 1145
 robot manipulation 335, 374, 412
 robot packaging method..... 203
 robot sensing system 172
 robotic arm 231, 424
 robotic assembly 731
 robotic finger..... 203
 robotic hand 444
 robotic joint..... 1219
 robotic surfaces 143
 robotic unit 203
 robotics..... 552
 robotics competition..... 677
 robotization 434
 robust stability..... 688
 rolling motion..... 1246
 ROS 2..... 1545
 RSNP..... 1619

S

scan matching..... 1365
 scanning shooting system 852
 scene flow 1327
 screw loosening inspection 918
 second-order consensus 1087
 self-controlling autonomous moving mechanism 1602
 self-efficacy..... 614
 self-folding..... 23
 self-localization..... 958
 self-lock mechanism 1263
 self-organized criticality 99
 self-position estimation..... 1343
 self-weight type..... 387
 semantic segmentation 1283
 semantic understanding..... 594
 sensing..... 918
 sensor failure..... 1254
 sensor fusion 958, 1102, 1127
 serial link mechanism 1593
 series elastic actuator (SEA) 627
 servo 688
 shape recovery 1489
 shape-memory alloy 1489
 shape-memory polymer ... 895, 1489
 shared control 835
 short-time Fourier transform..... 1205
 simulation..... 918
 simulator sickness questionnaire (SSQ)..... 648

situation awareness 927
 situational awareness 1153
 SLAM 322, 1153, 1355
 slippage 1420
 small-sized servo valve 135
 social system 1619
 soft actuator..... 153, 162
 soft artificial muscle..... 13
 soft finger 54
 soft robot(s)..... 64, 143, 162
 soft robotics..... 8, 23, 105, 172
 soft sensor 8
 spatio-temporal gradient 1327
 spherical body 1246
 spine torsion 222
 spontaneous behavior..... 99
 sports 677
 stability analysis..... 883
 staircase detection 1602
 state machine..... 1433
 state visual evoked potentials..... 945
 steering control..... 1068
 steering wheel torque control..... 835
 stereo vision 500
 stiffness switching..... 1219
 STM32F103C8T6..... 1230
 strain gauge 895
 stretchable sensor 8
 stuck recovery 1304
 subjective vertical conflict 1042
 subspace identification..... 1102
 suction gripper 356
 supervised learning 1400
 surface process 13
 swarm robotics 927
 switching control..... 1470
 synchronized cylinders..... 249
 system identification 1102

T

task analysis 984
 task planning 594
 teaching 444
 tele-operated excavator simulator 648
 teleoperation..... 444
 temperature and humidity compensation algorithm..... 752
 template matching 322
 therapy observation..... 666

thin PAMs	1581	wheeled-legged robots	489
three-dimensional viewer.....	973		
thrust	212		
torso rotation	222		
tracking	1557		
tractor-trailer vehicles	1195		
traffic psychology	1186		
training systems	478		
transformer encoder	1034		
trinocular stereo vision.....	1153		
Tsukuba Challenge.....	1304		
turning flight	864		

U

UAM	796
underwater robot	203, 212
unmanned aircraft	1400
user interface.....	1545

V

variable sensitivity	895
various tasks.....	1219
vehicle platooning.....	1087
vehicle teleoperation.....	1195
velocity control	1461
vibration mode	135
vibration test.....	1205
violin-playing.....	54
virtual camera.....	852
virtual reality	
.....	456, 478, 574, 604, 614
virtual-wall generation	1094
vision-language models	374
visual navigation	1283
visual prompting	374
visual question answering.....	374
visual servoing	412
visually induced motion sickness	
(VIMS).....	648

W

walking assistance.....	909
wall following.....	1094
wearable device.....	700
wearable robots	909
wheel encoder	191
wheeled mobile robot.....	1593
wheeled robots	489
