AIMS & SCOPE

This journal focuses on advanced computational intelligence, including the synergetic integration of neural networks, fuzzy logic and evolutionary computation, so that more intelligent systems can be built for industrial applications. This new field is called the computational intelligence or soft computing which has already been studied by many researchers, but no single integration journal exists in the world. This new journal gives readers the state of art of the theory and its applications of the Advanced Computational Intelligence & Intelligent Informatics. The topics include, but are not limited to; Fuzzy Logic, Neural Networks, GA and Evolutionary Computation, Hybrid Systems, Adaptation and Learning Systems, Distributed Intelligent Systems, Network Systems, Multi-media, Human Interface, Biologically Inspired Evolutionary Systems, Artificial Life, Chaos, Fractal, Wavelet Analysis, Scientific Applications and Industrial Applications.

JOURNAL OF

Advanced Computational Intelligence & Intelligent Informatics (JACIII)

In Cooperation with
International Fuzzy Systems Association (IFSA),
Japan Society for Fuzzy Theory and Intelligent Informatics (SOFT),
Brazilian Society of Automatics (SBA),
Society of Instrument and Control Engineers (SICE),
John von Neumann Computer Society (NJSZT),
Vietnamese Fuzzy Systems Society (VFSS),
Fuzzy Systems and Intelligent Technologies Research Society of Thailand (FIRST),
Korean Institute of Intelligent Systems (KIIS), and
Taiwanese Association for Artificial Intelligence (TAAI)

CALL FOR PAPERS

Paper Submission: Submit the paper manuscript in PDF format at

SCHOLARONE™ <http://mc.manuscriptcentral.com/jaciii>

JACIII Editorial Office, Fuji Technology Press Ltd.,

Unizo Uchikanda 1-Chome Bldg. 2F, 1-15-7 Uchikanda, Chiyoda-ku, Tokyo 101-0047, Japan

Phone: +81-3-5577-3851, FAX: +81-3-5577-3861, jaciii@fujipress.jp

Detailed information is available at

<https://www.fujipress.jp/jaciii/jc/>

<https://www.fujipress.jp/submission/>

Please use our on-line, searchable database for literature on mechanical engineering, control theory, soft computing and their related fields. It contains title, author names, keywords, and abstract of articles taken from our products. It is opened to everybody for free at

<https://www.fujipress.jp/>

A built-in search engine allows you to easily find the articles you are looking for.

The article data published in JACIII is registered to the database soon after its publication.
