### Presenting the MURAKAMI Suminao Award 2023

It is my great pleasure to present the MURAKAMI Suminao Award to Prof. Fumihiko Imamura.

Since the first issue of JDR, Prof. Imamura has published 36 papers and served as a guest editor for three special issues, making significant contributions to JDR over the years. In addition to his contributions to the field of tsunami disaster, he has actively promoted various joint research projects and international symposiums, particularly after the Great East Japan Earthquake. He has been recognized for his contributions to international academic exchange in various research fields. In recognition of these contributions, the JDR Editorial Board has decided to grant him the MURAKAMI Suminao Award.

I would like to express my gratitude to Prof. Imamura for his great contributions and congratulate him on winning the award.
