

# CALL FOR PAPERS

## Journal of Robotics and Mechatronics

### Call for Development Reports

The Journal of Robotics and Mechatronics (JRM) is calling for not only research papers from university researchers but also development reports from corporate engineers and university or college students. If you would like to present to our readers a system or technology you have developed in the field of robotics and mechatronics, you are encouraged to write a development report, even if you find difficulty in writing a research paper. Once published, your report will appear online free of charge and be shared with readers all over the world. JRM is an English journal, but if you are not confident in your English skills, you can write your report in Japanese and we will translate it for you. We are looking forward to receiving your development reports on, such as, product development in your company or an achievement in a robotics competition.

- 1) **Article type:** Development Report
- 2) **Contents:** Development report of a system or technology valuable and useful in industrial and/or academic aspect in the field of robotics and mechatronics. Typical contents include but are not limited to:
  - System or technology used in the development of robotics and mechatronics products
  - System or technology used in exhibitions, robotics competitions, or other engineering events
- 3) **Qualifications:** None
- 4) **Pages:** In general, 1 to 6 pages, A4 size.  
It should include abstract, keywords, text, figures and tables, and references.  
Please use the paper format available on the JRM website.
- 5) **Language:** English or Japanese. (Japanese manuscripts will be translated in our company after acceptance and published in English.)
- 6) **Page charge:** Page charge is required when your article is published.  
Details can be found on the JRM website.  
<https://www.fujipress.jp/jrm/rb-authors/>
- 7) **Publication:** Submitted reports will be reviewed and be published soon after being accepted.
- 8) **Submission:** **Always Welcome**

Journal of Robotics and Mechatronics

Index in: *ESCI*,  
*Scopus*, *Compendex*
